## PROJECTS

### Tic-Tac-Toe Game

- Technologies Used: HTML, CSS, JavaScript
- User Interface: Designed a responsive and visually appealing interface using HTML and CSS, ensuring compatibility across various devices and screen sizes.
- Game Logic: Implemented the core game logic in JavaScript, allowing two players to play against each other, with alternating turns and automatic win/draw detection.

### Weather App

- Technologies Used: HTML, CSS, JavaScript
- Developed a dynamic Weather App using HTML, CSS, and JavaScript to provide real-time weather information for any location worldwide.
- User Interface: Designed a clean and responsive user interface using HTML and CSS, ensuring a pleasant user experience across various devices and screen sizes.
- API Integration: Integrated with a weather API (e.g., OpenWeatherMap) to fetch real-time weather data, including temperature, humidity, wind speed, and weather conditions.
